

## How to Use Journal Alerts

Journal Alerts save valuable research time, and can be set up to provide automatic e-mail notification whenever a new issue of a particular journal becomes available in the EBSCO interface you are using.

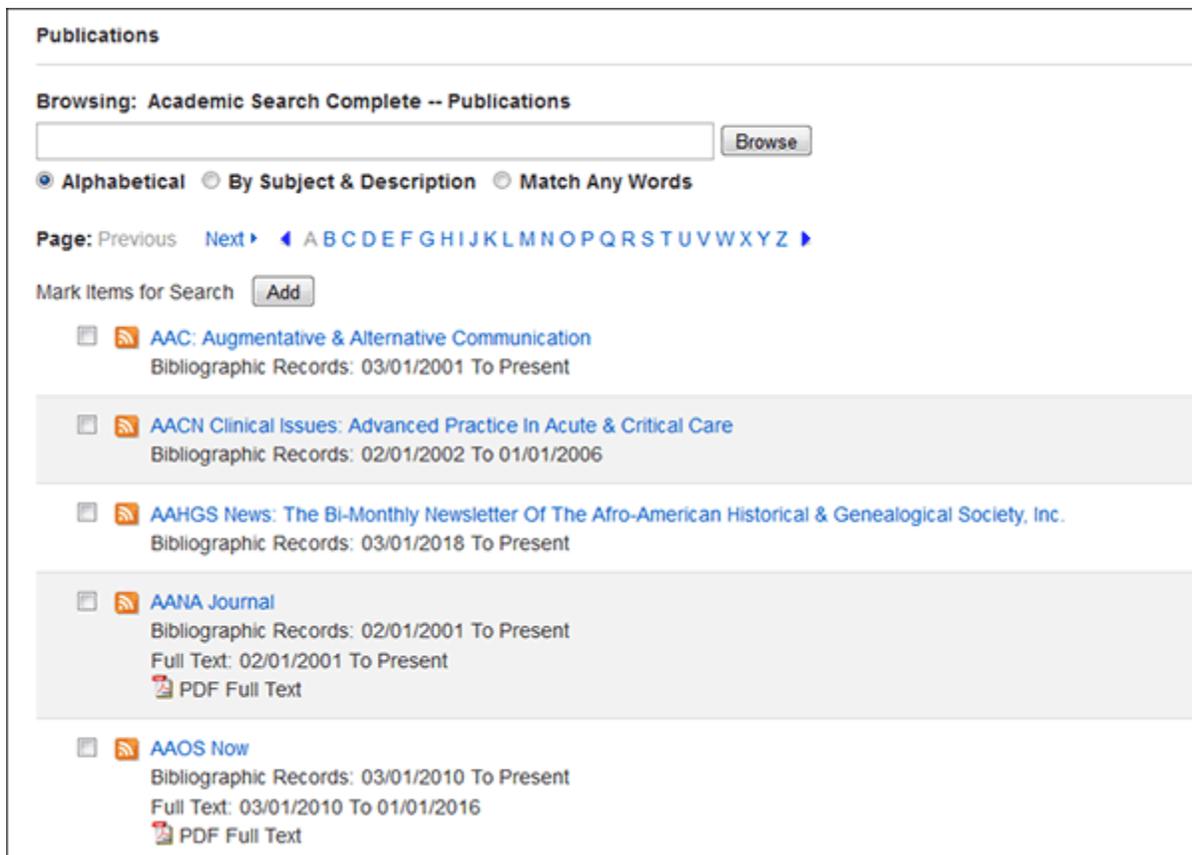

**Note:** To create an alert, you must log in to My EBSCOhost to create a search alert.

If you do not log in prior to setting up a Journal Alert you will be prompted to do so. If you do not have a free My EBSCOhost personal folder, signing up is quick and easy.
